Review of sprint

We accomplished a great deal of work this sprint, out of 43 point we managed to complete 61.

Sprint length

This sprint felt a bit short, having just two days isn't enough.

Review backlog

As we now are approaching the final week of programming we now need to only focus on the parts that will be manageable to implement. Therefore achievements will be left out. As for other things, the usage of the camera and taking pictures need to be clarified, the feed needs be more clear on how you interact with it and the differentiation between online and offline vocabularies needs to be clear.

Start next sprint

The new sprints starts today 12/10 15:30 and ends saturday 15/10 19:00.
